

# Wisdom

February 2023

*Judgement, Deep-Thinking, Maturity, Common Sense,*

- I can think about what might happen when I make choices
- To be wise, I have to think about mistakes that I have made and learn from them
- I appreciate that wisdom increases and that it is worth listening to others
- I can think deeply about things and look for meaning that I might miss first time.
- A wise person is one who knows what is good and decides to do the right thing.

Challenge: Can you find or make up your own wise quote.
